### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-7 and 9 are rejected under 35 U.S.C. 102(b) as being anticipated by US 6,049,152 to Mayfield.

Mayfield shows a trigger spray container with integral straw guide as seen in Figs. 1-5, having an asymmetrically shape container 42 formed by blow molding, see column 4, lines 8-13, with neck portion 30, a spray dispensing means 12, a flexible suction tube 14, a pair of partition walls substantially parallel a horizontal axis, as seen in Fig. 4, dividing the container into two chambers, one of the chambers retaining fluid when the container is move from a vertical to a horizontal position, see Fig. 1.

***Claim Rejections - 35 USC § 103***

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claim 8 is rejected under 35 U.S.C. 103(a) as being unpatentable over US 6,049,152 to Mayfield.

Art Unit: 3754

Mayfield shows all claimed features as discussed above except for a symmetrically shaped container. The shape of the container presents no novel or unexpected result over the shape of the container used in the reference. Use of any specific container in lieu of those used in the references solves no stated problem and would be an obvious matter of design choice within the skill of the art, see column 5, lines 3-7. In re Launder, 42 CCPA 886, 222 F.2d 371, 105 USPQ 446 (1955); Flour City Architectural Metals v. Alpana Aluminum Products, Inc., 454 F. 2d 98, 172 USPQ 341 (8th Cir. 1972); National Connector Corp. v. Malco Manufacturing Co., 392 F.2d 766. 157 USPQ 401 (8th Cir.) cert. denied, 393 U.S. 923, 159 USPQ 799 (1968).

### *Conclusion*

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Silvaggio shows a spray bottle. Chameroy shows an oil can. Freeman shows a lubricating oil can. Masterson shows an oil can.
